was told to live tiktok every day. However, she was uncomfortable with the way her mother told her to and her mother said that she would not pay for her school in England if Lolly did not obey her mother's wishes. Lolly and Nikita Mirzani's feud has been horrendous again since Lolly lived independently in London, England. Where the child is in a relationship with one of the Arab-blooded men named Vadel, Nikita compares that the son of Olla Ramlan is much better than Lolly's current lover. Lolly did not accept that. As a result Nikita stopped the monthly money that she always gave to Lolly. In March 2024 Lolly came to Nikita to Indonesia with the intention of apologizing for what she had done she claimed that after all Nikita was her mother. But while in Indonesia, Lolly's arrival was ignored by her mother, she came to her mother's house many times, however, she always received unpleasant rejection from her mother. Nikirta also said on one of the TV broadcasts that her child returned to Indonesia because the child was dismissed from school. Not long after, Nikita's personal assistant told her that she found a positive pregnancy test in Lolly's room.

Perseteruan antara Nikita Mirzani dan putrinya, Lolly, telah menjadi perhatian publik sejak pertengahan 2023. Lolly membeberkan aib ibunya bahwa ia dipaksa oleh ibunya untuk menjelek jelekkan sang ayah Antonio mantan suami dari Nikita Mirzani, bukan hanya itu Lolly juga mengaku bahwa ia kerap dipaksa untuk live tik tok setiap hari demi mempromosikan usaha bisnis milik ibunya, Lolly mengatakan bahwa sebenarnya ia tidak keberatan jika disuruh live tiktok setiap hari. Namun, ia tidak nyaman dengan cara ibunya yang menyuruhnya itu dan ibunya mengatakan bahwa toidak akan membiayai sekolahnya di Inggris jika Lolly tidak menuruti kemauan ibunya. Perseteruan Lolly dan Nikita Mirzani kembali menghebohkan sejak Lolly tinggal mandiri di London, Inggris. Dimana sang anak menjalin hubungan dengan salah satu pria berdarah arab yang bermama Vadel, Nikita membandingkan bahwa putra dari Olla ramlan jauh lebih baik dari kekasih Lolly yang sekarang. Lolly pun tidak terima dengan itu. Alhasil Nikita memberhentikan uang bulanan yang selalu ia berikan kepada Lolly. Pada Maret 2024 Lolly mendatangi Nikita ke Indonesia dengan maksud ingin meminta maaf atas apa yang telah ia perbuat ia mengklaim bahwa bagaimanapun Nikita adalah ibunya. Namun sesaat di Indonesia kedatangan Lolly justru tidak dipedulikan oleh sang ibu, berkali kali ia mendatangi rumah sang ibu, namun, selalu mendapat penolakan yang tidak menyenangkan dari ibunya. Nikirta juga mengatakan di salah satu siaran TV bahwa anaknya kembali ke Indonesia dikarenakan bahwa sang anak diberhentikan dari sekolahnya. Tak lama kemudian, asisten pribadi Nikita memberitahunya bahwa dia menemukan tes kehamilan positif di kamar Lolly.

BACKGROUND

The uproar was rekindled when Nikita reported Vadel to the police for allegedly having sex with a minor. Even in Nikita's report, Vadel is said to have ordered Lolly to have two abortions. Not long after, Nikita Mirzani's personal assistant also reported that she had found a tespek that showed two lines. Lolly on social media clarified the rumors that are accusing her now. However, from the beginning when reporting Nikita and her attorney had brought evidence, including photos that they did not explain. In Nikita's report, Vadel allegedly violated the Child Protection Law, the Health Law, and the Criminal Code Law. for this reason, Nikita decided to forcibly pick up the child and secure her in the women's protection center with the aim that Lolly's condition could recover both physically and mentally.

Apparently Lolly's rebellion, which is considered a rejection of her mother, was responded to by several psychologists, this is what one psychologist said “Maybe if for example there is communication between mother and child, it should be talked about first that this will be done, you come or Mama picks up or what might be more subdued,” said Mother Romi. One theory that reveals this event is role theory. According to role theory, conflicts between mothers and children can occur if there are differences in role expectations. For example, the mother may have certain expectations regarding how the child should act according to social values or norms, while the child may have different views or desires. This mismatch in role understanding or expectations can lead to tension and conflict. Nikita also

decided not to consider Lolly as a child and threatened to remove Lolly from Nikita's family file. Then what is the Islamic view of Nikita's decision.

INTRODUCTION

In Islam, breaking ties is one of the major sins. The Messenger of Allah (SAW) said: “One who breaks ties of friendship will not enter Paradise.” (HR. Bukhari and Muslim). This shows that maintaining family relationships, including between parents and children, is very important in Islam. Nikita said that she had closed the door to forgiveness because she was already hurt by her son's actions. So this is what ustad Fathullah said, giving advice so that the relationship between child and mother is good again.

“If the child is disobedient to the parents and this conflict continues, there will be no blessing between the two. Every child of Adam must have committed mistakes and sins, and children should not judge their parents, especially their mothers, whatever comes out of their parents but still the child must remain obedient and obedient to their parents “. Said the Ustad. Then ustad Fathullah also said that it was a big sin to close the door of forgiveness to the child “Allah forbids his people to break the relationship. And it is impossible if a loving mother will not forgive her child, as hard as the parents educate, they must always forgive any mistakes made by their children”.

RESEACRH METHODS

In writing this article, We have analyzed that this is a conflict between religion and the psychology of both the child and the mother, where they feel that each of them is right and there is no sense of wanting to give in to each other, leading to decisions that are prohibited by religion. we have done some reset about Nikita dan Lolly's feud. And also have conducted interviews with student how they respond to this feud. also asked the students if they did the same to their parents, especially to their mothers.
